Mathematik - Zahlenraum 1000

Zuordnung Zahlbild - Zahl

Die Aufgaben können auf selbstklebende Etiketten (z.B. Zweckform 3652) gedruckt und auf Blanco - Memorykärtchen (5 x 5cm) geklebt werden. Diese lassen sich aber auch aus Fotokarton ganz leicht selber herstellen. An den dünnen Linien wird das Etikett auseinandergeschnitten. Zur Selbstkontrolle können die Kärtchen auf der Rückseite mit Symbolen gekennzeichnet werden.
